

INTEGRATION OF APPROACHES IN COMPUTER

CLASS SCHEDULE for High School  
Example only

Date & Week	Day	Pages	Topic	Approach	Integration
1	1	Part I pp 1-12	Instruction Review Characteristics of a computer	philosophy rationale	discuss philosophy and rationale of computer studies
	2		continuing	links	emphasize Self-worth and link it as one of our characterists to the computer and its characteristics
	3		continuing	atmosphere	I can talk about my belief in the God Who is far more creative than any computer and Who has given us brains far more intricate than computers
2	1	13-23	How computers work and their parts	mission	as it has so we have a part and a role in church
	2		continuing	REBIRTH	Spiritual Gifts: As it works together so we must work together to fulfill the mission of the church
	3		continued	links	link to cooperation. You can cooperate by doing your part in the big work ffor the church
3	1	24-29	Hardware	contributors	introduce Christian computer men like Engineers Valdez, Cailas, and Rivera as inventors
	2		continued	links	link to Love. The hardware is always where there is a computer. Jesus is always where there is love
	3		continued	links	Have courage to try a new skill on the computer
4	1	40-53	More hardware	atmosphere	I can make bulletin boards with pictures of computers and of God. We don't understand either one but they can hlep us
	2		continued	links	link to Responsibility. Use hardware responsibly as good stewards
	3			links	link to Holy Scriptures: Hardware facilitates the software, so the Bible holds the "programs" for the Christian
5	1	56-66	Software	contributors	introduce some Adventist computer programers
	2			links	link to Learning. There is much more to learn about computers, as there is much more to learn about God
	3			links	software has controls built into it, so we need to build Self-controls into our selves
