

Mission of the Church

Prepare students to fulfill the mission of the church by:

a) Showing what Adventists do in the church organization, relating to the subject of PHYSICS.

Some examples:

- Teach the class in schools
- Do archeological work in Biblical lands
- Research for creation seminars

Additional examples:

b) Identifying personnel and functions, related to the area of PHYSICS, that are needed to fulfill the church's mission.

Some examples:

- Experts in lighting and photographics technology for sharing the gospel.
- Educated understanding to go to out of the way places and manage the weather and terrain

Additional examples:

PHYSICS

c) Giving students opportunities and personal experience in witnessing, out-reach and service relating to the area of PHYSICS.

Some examples:.

Interest in stars can become astronomers

Inventive interests can improve technology

Additional examples:

d) Identifying the role and importance that PHYSICS plays in fulfilling the mission of the church.

Some examples:

To understand how little we really know about God's world

To understand how little power we really have to control the world

To help in spreading the gospel in outposts.

Additional examples:
